Our legal services focus in the major areas such as finance, investment, business, wealth management and creative industries. It is our mission to provide highly customized legal solutions that offer professional supports and “one-stop” personalized services to clients.

For example, we provide legal services relating to funds. These include legal investigation and due diligence services, advising on fund formation and management, formation of investment vehicles, Collective Investment Schemes for SFC authorization and advising fund professionals.

Our commercial team comprises lawyers with license as an Investment Advisor for types 4 (securities), 6 (corporate finance) and 9 (assets management) under the Securities and Futures Commission and the qualifications of Certified Financial Planner. Thus, in addition to legal expertise, we possess investment expertise which enables us to be in a better position to understand the interests and concerns of our fund clients.

Wealth management is another service provided by us. We understand that the succession to and management of wealth has been the concern of many high-net-worth individuals. Therefore, we provide services to help our clients achieve long-term wealth planning. These include estate and family assets planning, business succession planning, private trust formation, wills, probate and estate administration.

Apart from the above areas of services, our lawyers are also experienced in the legal areas relating to media, entertainment, creative industries and intellectual property.
